Elba Exchange Bank Installs

NIGHT DEPOSITORY

To Service Citizens of Elba and Its Trade Territory

The Elba Exchange Bank is installing this week a Night Depository in the mont of the bank building with an opening through the wall just west of the large plate glass window.

the top of the depository is a large chute. It is opened with a key and large packages may be dropped into the safe on the inside. Below this rectangular door is a small chute for taking normal deposits any time during the day. The bank is arranging a little desk just east of the front door where deposit slips, checks, envelopes, pen and instructions for making deposit will be kept. The depositor will complete his deposit ficket in duplicate listing cash and checks as shown on the ticket, giving the correct total at the bottom. He will place the original ticket with currency and checks in an envelope and then drop the sealed envelope in the slot at the night depository opening. The duplicate ticket will be kept as his record until the bank verifies his deposit next day by mail. Having to go to the bank during rush hours will thus be eliminated. The depositor can make a deposit any minute he wishes, pick up a pocket check book and pay his accounts by check to amount of his deposit ac-

All deposits made through the night depository will be covered by banks regular bond so any money handled this way will be safe.

The officers of the Elba Exchange Bank are endeavoring to give the ctilzens of this territory as good service as can be had through any bank in Alabama in handling their deposit accounts. The bank is also anxious to make loans (secured loans) to those who may need to borrow money. The bank officers are asking you to call on them when they can be of

Personnel at the bank are asking you to inspect their night depository and let the officers show you wherein you can benefit by its use. It is: being installed for you to use when needed.

Southern Benefit Helps Write Many SUCCESS STORIES

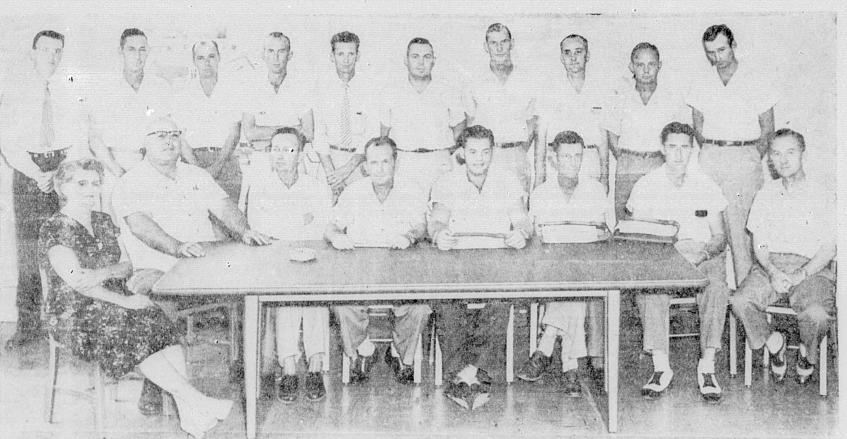

During It's 15 Years in Business

You can record the success of many individuals when tracing the growth of the Southern Benefit Life Insurance Company in Elba as it celebrates its fif teenth anniversary in business this month. Besides being a monument to the success of the men who initially organized the firm and nursed it through infancy to its present healthful stage, it mirrors the progress of the community in which it is located. As the town has grown, so has Southern Benefit. They have complemented the growth of each other, the insurance company furnishing needed capital to many businesses and farms for their expansion programs. A good deal of the successful home life of many residents depends at least partially on The Southern Benefit. Through the payroll alone, the company releases \$160,000 into Elba trade channels each year. This doesn't include all the commissions paid to the 15 agents working in this area. Besides having 15 agents working out of the home

office, other districts in the northern part of the state are collecting money and sending it to the Elba office. Hore it is loaned to many local people.

There is also another kind of success story to which Southern Benefit contributes. By buying one of our policies individuals and families are making their own financial positions stronger through this method of saving. By putting money into our insurance policies, they are making their homes more secure. In case of an emergency they have the security of one of our policies to fall back on. Because they know they have this, they are better able to devote more time and energy to their jobs and be more successful. Each premium paid by a policyholder is another chapfer in the history of his progress toward success. Through this systematic savings and the security it brings, they are contributing a lot to their own suc-

On our 15th anniversary we are proud of our own success story as well as those we have helped become

At their bi-monthly mostings, they make reports of sales and collections and are told of any changes in ern Benefit. company policy. These men contribute a good deal to the town's economy with their purchases of food, clothing, gasoline car repairs and other necessities. Standing: Wiley Stanford, W. B. Reynolds, W. Y. Stroud, Marvin Watson, Clifton Holiday, H. E. Ward, M. K. McCollough, Carey Norris,

The appointment of Wiley W. Stanford Jr. as vice president and secertary has been announced by Southern Benefit Life Insurance Co. Stanford has been associated with the Emergency Aid Insurance Co. of Elba since 1950. He is the son of Mr. & Mrs. Willby W. Stanford Sr. of Pine Apple.

The appointee served in three theaters of war during World War II, and graduated from the U. S. Maritime Academy at Kings Point, N. Y. in 1946. He later attended school at API and holds a BS degree in accounting. In the Naval Reserve he holds a Lieutenant J. G.'s rating.

Stanford is married to the former Rebecca "Sis" Crawford of Seima. They have two children, Susan, 4, and Charlotte, 1. Bes des his office duties and home life, Stanford is active in community affairs. He is a deacon in the First Baptist Church, Master Mason, president of the Elba Lions Club, a director of the abama Sight Conservation Association, past member of the and Boy Scout Council, and member of Lions District governors

Officials of the company believe their firm is appropriately named. The policies they sell have the same soundness of investment as do those of larger firs. When a Southerner buys a policy from them, he keeps his money at home where the dollar are reinvested for the BENEFIT of SOUTHERN business. Four full-time employes who hold office positions in the

ARE YOU GETTING THE MOST FROM YOUR HOME'S ELECTRIC SYSTEM?

Electrical appliances and lamps give best service when receiving the required amount of electricity. When electric wires in the home are not large enough or there aren't enough circuits, lights burn with less than full brightness . . .

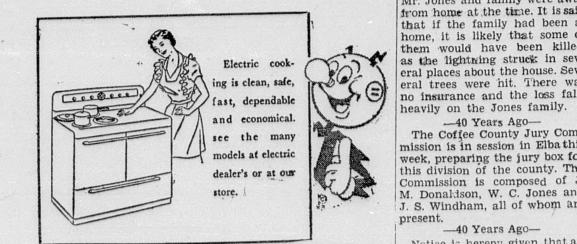

... air conditioning units ... lights flicker as an do not perform well appliance starts ... there may be radio and ... fuses blow out

Alabama Power Company has worked out a plan by which you can finance a re-wiring job over a period of 24 months. This offers you an opportunity to have a home as up to date as a brand new one in so far as wiring is concerned so that you may get full performance from the electrical appliances you have now or expect to have. (Electric water heater? Range? Dishwasher? Clothes Dryer?)
